DAV UNIVERSITY
JALANDHAR

The key observations were:

- Students were satisfied with their domain knowledge.
- Students of management stream were doubtful regarding their skills on innovative solutions and further global exposure and cross-cultural understanding.
- Engineering students were unsure regarding problem analysis, investigations of complex problems, relationship between engineer and society.
- Sciences students were uncertain regarding role of their programmes in effective citizenship.

Action Taken

1. The management coordinator was informed to make the students skilled for developing innovative solutions.
2. The engineering coordinators were informed to allocate capstone projects to the students bridging gap between knowledge and social needs.
3. The science coordinators were requested to make aware of the students regarding the role of their programme for making them responsible citizens.
